EDUCATION

Lebanese University, Hadath — *B.S. in Computer Science*

OCTOBER 2021 – SEPTEMBER 2024

EXPERIENCE & TRAINING

AreebaSal, Beirut, Lebanon — FrontEnd React Developper

August 2024 – September 2024

- Developed the website for the Acquiring platform, incorporating features for managing merchants and their associated businesses, outlets, branches, and groups.
- Collaborating with different team members including designers, business analysts and product managers following Agile methodologies.
- Working within the API team to build back-end APIs in a microservice architecture, with responsibilities including design and documentation(Swagger), development and testing.
- Collaborated with designers to implement new features on the AreebaID platform, enhancing functionality and improving user experience.
- Took on various tasks related to the styling and adding different new features Acquiring website, ensuring seamless integration and performance.

Freelancer, Beirut, Lebanon — Gold E-commerce Website

OCTOBER 2024 - PRESENT

- Developed features for an e-commerce website based in Kuwait, allowing users to view gold items, add them to their cart, and complete the checkout process.
- Worked on the API to streamline data exchange and ensure seamless interactions between the front-end and back-end services.
- Implemented a points-based rewards system, enabling users to earn points with each purchase and later redeem them for discounts.
